PROFESSIONAL SUMMARY

Full-stack Software Engineer with 6+ years of experience building TypeScript-based products across web frontend and backend services. Strong in React, Node.js, and NestJS, with hands-on delivery of user-facing flows, API integrations, and analytics dashboards that improve operational decisions and product outcomes. Experienced collaborating with cross-functional stakeholders to ship fast iterations, reduce friction in workflows, and scale reliable systems.

CORE SKILLS

Programming Languages: JavaScript, TypeScript

Web Frameworks: ExpressJS, React, NestJS, NodeJS

Automation Testing: Cypress, Vitest, React Testing Library, Jest

Databases: SQL (PostgreSQL, MySQL), NoSQL (MongoDB, Neo4J, Redis)

API Development: API Design Knowledge (REST and GraphQL)

Infrastructure: AWS CDK

Development Methodologies: Test Driven Development, Domain Driven Design, Microservices, Continuous Integration, Continuous Deployment, Continuous Testing

Queueing Technologies: BullMQ, AWS SQS

EXPERIENCE

Turing, USA — Software Engineer

March 2025 - PRESENT

- Implement full-stack TypeScript features and evaluations that improve quality and reliability of AI product outputs.
- Ship production-ready solutions quickly, with strong focus on correctness, edge cases, and maintainable design.
- Collaborate across distributed teams to unblock delivery and iterate based on feedback.

QShelter, Nigeria — Senior Full Stack Developer

NOVEMBER 2023 - PRESENT

- Built web admin experiences and backend APIs for QShelter and federal housing initiatives (MREIF, Renewed Hope), improving operational execution across mortgage and property workflows.
- Designed role-based product flows with a granular RBAC authorization system for page and component access, reducing inter-departmental access conflicts by 80%.
- Built and maintained microservice-based APIs serving 112,000+ users, with a focus on reliability, clear API contracts, and scalable architecture.
- Implemented dashboard analytics used by sales and operations teams to monitor KPIs, contributing to

performance improvements of over 70%.

- Delivered automated tests and technical documentation (OpenAPI/Swagger, Postman flows, ERDs, sequence diagrams) to speed handoffs and reduce release risk.
- Deployed cloud infrastructure with AWS CDK and supported iterative delivery of product and process improvements.

Jatado, Nigeria — *Full Stack Developer*

JUNE 2022 - OCTOBER 2023

- Revamped the Jatado blog with engagement-focused features (sharing, likes, comments, saved libraries) to improve user interaction and retention.
- Built frontend and backend modules for a contact management system in a multi-module operations platform.
- Developed APIs for a diet application and maintained tests plus technical artifacts (ERDs, sequence diagrams, API docs).

WIDOX, Remote — *Front End Developer*

FEBRUARY 2022 - APRIL 2022

- Built the front end for a crypto website.
- Wrote both component and **end-to-end tests**.

FREELANCE, Remote — *Full Stack Developer*

FEBRUARY 2019 - PRESENT

- Built customer-facing websites and product flows for multiple businesses, including Java Energies.
- Delivered an account-opening application for Homebase Bank and integrated queue-based processing to improve user experience under load.
- Built the frontend for Traffic Pilot, a CMS for social traffic monetization and ad delivery workflows.
- Developed and launched the GDS Micro Credit Platform with React frontend, backend services, scalable data models, and automated accounting processes.

EDUCATION

FEDERAL UNIVERSITY OF BENIN (UNIBEN) — *Bachelor of Engineering (BEng) Computer Engineering*

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (Amazon Web Services)
- https://www.credly.com/badges/b78944b0-4b57-4856-8783-8fe53692a82c/public_url
- AWS Certified Cloud Practitioner (Amazon Web Services)
- https://www.credly.com/badges/bb22933f-1463-4bbc-bd78-c9e379c06cd5/public_url
- AWS Academy Graduate — Cloud Architecting Badge (Earned Jan 2025)
